SUN PROTECTION POLICY

Too much exposure to ultraviolet (UV) radiation from the sun causes sunburn, skin damage and increases the risk of skin cancer. Sun exposure in the first 15 years of life contribute significantly to the lifetime risk of skin cancer.

Here at Humpty Dumpty Pre-school we want all staff and children to enjoy the sun safely. We will work with staff, parents, and carers to achieve this through:

Education

- All children will be involved in a discussion, appropriate for their age and understanding, at the start of the summer about sun protection and the risks.
- All staff will be educated in the importance of sun protection and the risks involved in not protecting both themselves and others.
- Parents and carers will be informed about our policy.

Sun safety will be promoted through working with parents, staff and the wider community to improve our understanding and provision to avoid the harmful effects of too much exposure to UV. Staff should always act as a positive role model and set a good example by seeking shade whenever possible, wearing appropriate clothing and applying sunscreen.

Protection

- The nursery garden has no protection, so we limit the time the children are out there. We have gazebos and use these as much as possible.
- Children will be encouraged to use these shaded areas when appropriate.

Clothing

- The children will be encouraged to wear clothes that provide good sun protection (sun hats etc.)
- Parents/carers to make sure that the children have on appropriate clothing for the weather.
- Staff should wear hats when appropriate to act as good role models and to also demonstrate drinking plenty of water.
- Children are encouraged to increase their water intake in hot weather and are encouraged to do so in outdoor areas also.
- Water will always be available to children throughout the day.

Sunscreen

- Parents of children that attend half day should apply sunscreen to the child at home. For those children that attend for a full day, parents should apply cream to their children before they come to nursery and staff will assist the child in re-applying it during the day when necessary.
- Parents are required to provide the nursery appropriate sun cream for their children.
- The sun cream must be in date and be a minimum of factor 30
- Parents are welcome to leave the sun cream at the nursery for the duration of the summer. But this cream must be clearly labelled with the child's name on it.
